**Motorcycle Oil Stabilizer is a 100% petroleum product developed specifically for motorcycle applications. Its 12 ounce size makes it perfect for fitting into saddle bags or other onboard storage areas. It virtually eliminates dry starts, wear, extends oil life and lowers oil temperatures, especially in Harley Davidson's. It is designed to improve oil pressure, reduce smoking, and eliminate oil leaks and blow-by in older engines. It also quiets engines and can be used in gear boxes and primaries.**
